EXPERIENCE

Barton Malow

Intern - Data Science

May 2026 – Aug 2026

Michigan, United States

- **Built a Databricks Cost Analytics pipeline** and leadership dashboard from Unity Catalog billing data, bringing \$146K in lifetime spend under governance and cutting unowned spend 85.6% to 54%.
- **Designed a Claude AI cost-attribution dashboard** isolating agent costs from shared Databricks compute (20+ users, 8,000+ queries), revealing a 5.5x growth in AI's warehouse-spend share (1.5% to 8.3%) in 5 months.
- **Engineered a 211-check automated data quality framework** across 23 production tables, surfacing that ~84% of active records carried an issue and root-causing a 39% completeness bug causing dashboards to underreport.
- **Skills:** Databricks, ETL/ELT, CI/CD, Claude Code, Github, Jira, PySpark, Python, SQL.

Pennsylvania State University

Research Assistant - Data Science

Sep 2025 – May 2026

Pennsylvania, United States

- **Engineered a three-stage matching workflow** (TF-IDF → SBERT → Neural Refinement) processing 120 resumes against 2,277 projects for RA candidate screening, improving match quality 122% and reaching 96% accuracy.
- **Architected a deterministic rule engine** auditing MyRaina's AI fall-monitoring technology, ingesting activity logs through 5 CMS-mapped checks into an immutable SQLite audit trail, explained via a local Llama 3 layer.
- **Skills:** SBERT, PyTorch, NLP, Data Workflows, SQLite, LLM Integration (Llama 3), Python, SQL.

Oracle Corporation

Staff Data Consultant

Feb 2022 – Dec 2024

Bangalore, India

- **Validated end-to-end billing data** pipelines for 600K+ telecom subscribers using SQL-driven data quality checks, anomaly detection rules, and reconciliation reports, ensuring 98%+ accuracy within SLAs.
- **Built and automated KPI dashboards** (churn, usage patterns) with 99% on-time delivery, enabling leadership to track performance and make data-driven decisions in weekly reviews.
- **Led onsite test efforts** for a 15-member team across a 1-month go-live window, building client trust by tracking and presenting a declining post-launch bug trend.
- **Skills:** Python, SQL, Oracle Database, Data Analysis, Business Analysis.

Accenture Solutions Pvt Ltd

Data Consultant

Jun 2019 – Feb 2022

Pune, India

- **Identified and resolved** 50+ recurring data quality issues in production billing datasets for 4.5M customers, improving billing accuracy and customer trust.
- **Automated batch bill-run workflows** using SQL scripts and scheduling, reducing processing time from 1 day to 2 hours (12x faster) and manual effort by 92%.
- **Designed a SQL-based data validation framework** (row-level checks, reconciliation, exception flags) that reduced discrepancies by 60% and shortened month-end close by 10%.
- **Skills:** Python, SQL, Shell Scripting, Data Analysis, Excel, Client Communication.

EDUCATION

Pennsylvania State University

Master of Data Analytics, GPA: 3.96/4

Pennsylvania, United States

Aug 2025 – Dec 2026

Statistical Analysis, Data-Driven Decision Making, Predictive Analytics, Deep Learning, Natural Language Processing.

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, PyTorch, TensorFlow, Keras), SQL, R, Java.

Machine Learning & Statistical Techniques: Regression, Classification, Clustering, NLP, Time Series Forecasting, Feature Engineering, Model Evaluation (AUC-ROC, F1).

Data Tools & Cloud: Databricks, Delta Lake, CI/CD, ETL/ELT, PySpark, Tableau, Advanced Excel, AWS, Github.

AI Productivity Tools: ChatGPT, Julius AI, Cursor IDE, Claude Code, GitHub MCP, Claude CLI, Claude Skills.

PUBLICATION

Co-authored and presented "Autonomous Multi-Agent Governance: AI Sentinel Framework for Mitigating Psychological Restraints in AI-Driven Fall Management," PhD Research Track, SEET 2026, Springer Nature.
